

WALKS

What distance do the athletes walk?

U8, U9	700m
U10, U11	1100m
U12, U13, U14, U15, U16, U17	1500m

What is the basic technique?

- Posture – have the head and body tall, shoulders parallel to the front.
- Arms – swing the arms with shoulders relaxed and low.
- Legs/feet – the basic action of the walk is a heel-toe action. The athlete lands on their heel and rolls forward on to their toe. From the time the heel hits the ground to the time the foot passes underneath the body the leg must be straight.

What is a CAUTION?

A caution (Yellow Paddle) is given when an athlete is “close” to breaking the rules. e.g. it looks like they might be starting to bend their knee too early. You can get a caution from each judge.

What is a WARNING?

A warning (Red Card) is issued when an athlete has “broken” the rules. This can be for knees (not keeping the leg straight from first contact to a vertical position) or loss of contact with the ground.

When is an athlete disqualified?

If they receive a “warning” by three or more different walk judges. N.B. athletes are allowed unlimited “cautions” and will not be disqualified.

Where do the judges stand?

- Judges spread themselves out around the outside of the track so that between them they have all areas covered i.e. divide the track up by the number of judges.
- Each judge is responsible for his/her own area. Judges cannot give cautions or warnings to any athlete for something they see outside of their area.

What are some “Handy Tips” for conducting walks?

- Conduct one race walks event per age group or combine age groups.
- Allow the athletes to finish the race before disqualifying.
- For younger athletes instead of formal warnings and disqualifications, stop the athlete during the race, explain what they are doing incorrectly and allow them to continue after a few seconds.
